

MMA-250D/315D/400D

Wide Input Voltage & Generator Friendly

- Super wide input voltage AC150V-AC510V, welder identify the power grid automatically.
- Hot start, Anti-stick and arc force function built-in.
- Generator friendly(8KW generator).
- With over-current, over-heat and low voltage protection functions.

Applied area

- Applied to welding of ordinary carbon steel, low alloy steel, stainless steel, cast iron
- Suitable for doors and windows, guardrails, sheet metal, installation and maintenance, construction engineering and other industries

DUAL VOLTAGE MMA INVERTER WELDING MACHINE				
	Unit	MMA-250D	MMA-315D	MMA-400D
Input Voltage/Frequency	V/Hz	1P AC 220 /2P AC 380 ±15% 50/60		
Input Current	A	17.4/10.1	20.8/12	28/16.2
Rated No-Load Voltage	V	76/65	76/65	76/65
Welding Current	A	30-160	30-200	30-240
Duty Cycle		30%	40%	40%
Efficiency	η	≥80%	≥80%	≥80%
Power Factor	cosφ	0.73	0.73	0.73
Insulation Grade		F	F	F
Protection Class		IP21S	IP21S	IP21S
Cooling		Fan	Fan	Fan
Dimension (L*W*H)	mm	310x148x267	336x165x305	370x175x334
Net weight	Kg	5.0	6.5	8.0
Gross weight	Kg	6.0	6.8	9.2
